A POLITICAL WEATHERCOCK.

On the 8th of March the Austin Reveille under the heading "Jones' Successor," used the following language:

He (Jones) will have to do some tall rustling from this on, because he has not the reputation he had six years ago, when he won the gratitude of Nevada, for his stand on the silver question. But before we shelve him it will be well to consider who we have to succeed him. Is there a Republican in the entire State who can secure the party vote and be a fit Senator? We do not now call to mind one who could do this. The developments of the next year and a half will be watched with interest.

Within a few weeks the Reveille opened its batteries, and for it the situation changed so that there was no need of watching developments for the next year and a half.

Immigration Prospects.

In the Bulletin of Tuesday was the following item of general interest:

It is expected that next year will see a very large immigration into California, and that, too, of the very best class of people. It is reported that a very lively interest in this State has been excited in the Western and Northwestern States, and that men of means and prominence have begun to look to California as a home. The exhibits of California productions in Chicago has done much to excite this interest, and the work of immigration agents abroad will, it is expected, show good effects next year. But in Germany the effort to induce emigration to California has to be made in the face of the Government opposition. No pamphlets are allowed to be distributed, and a short time ago 20,000 books issued by the Central Pacific Railroad's agent were seized and destroyed. The land sales of the railroad from January 1st to Saturday last aggregate \$714,000, and it is thought that the transfers of land in this State during the same time aggregate \$3,000,000.

An issue is made upon civil service reform in one State. Ordinarily the conventions of the two parties either ignore the subject or strive to rival each other in glittering generalities in favor of reform in the abstract. But in New Jersey, the Democratic Convention had the honesty to avow its opposition to the competitive plan for taking the offices out of politics, and the candidate whom it nominated for Governor, in his speech accepting the position, bluntly said that if elected he should "reward those who do the work" of the campaign. The Republicans, in their platform, congratulate the country on "the successful application of the principles of genuine civil service reform in the national administration," and favored the application of the system to the State Government. The voters who believe in reform have a chance to put in a little work in New Jersey to show that they are in earnest.

Among politicians it is whispered that the consolidation of the Eureka and Carson Land Offices is but the initial move in a scheme to create an office big enough to accommodate ex-Senator W. W. Hobart.—Carson Tribune.

Nothing in it. The Eureka office will not receive but his \$500 salary, and the increase in fees won't help him a great deal.

The next great railroad "apika" celebration will probably be an international one. On the 1st of June next, it is understood by parties who are interested in the enterprise, that the Mexican Central will be completed, thus establishing direct connection between the "halls of Montezuma" and the railroad system of the United States.

The Democrats of Indiana now propose that Congress shall investigate the frauds by which the Republicans carried the State in 1880. A greater fund of information can be obtained by commencing to investigate now to determine how Indiana went against the Democrats in 1884.

Crown Point has got up steam, and a considerable number of men have been put to work. When all the mills start they will put some eight hundred men to work along the Comstock.

The end of the world is confidently predicted by devout Moslems to be approaching with the close of the Mohammedan thirteenth century, which comes on the 8th of next month.

A party of U. S. surveyors have just made the ascent of Mount Shasta with mules, a feat heretofore considered impossible.

The Lander county Board equalized the Central Pacific at \$12,000 per mile.

INTERROGATING CONGRESSMEN.

A Variety of Opinions on Subjects of Vital Importance.

The New York Tribune has interviewed by post Members of Congress on several topics. The paper says: Replies have been received from eighty Democrats and forty-five Republicans. All are opposed to any attempt to reopen the tariff question for general revision, although nine of them would be glad to have a re-adjustment as to certain items. Seventeen want the duty on wool restored to the old rates. One would like to have lumber placed on the free list. Three strongly oppose a high duty on sugar, and one believes that certain errors may be corrected and useful modifications made under the two-thirds rule. Only four express opposition to a repeal of the compulsory provision of the Silver Coinage act, while twenty-six favor it, and the remainder express no opinion. Fifteen favor the continuance of silver certificates, twenty-one oppose it, and nine are non-committal. Six Representatives who now favor the repeal of the Silver Coinage act, say they would not if it provided for "an honest dollar." Three favor recoinage of trade dollars. Eleven favor the repeal of the Internal laws; five desire to have the tax retained on whisky only, and that at reduced rates; nineteen oppose any modification, and eight are non-committal. Of seventy-nine Democrats who respond to inquiries, fifty-two favor a reopening of the tariff question next Winter, four are opposed to it, and the remainder non-committal. Of seventy-nine Democrats sixty-four are opposed to the repeal of the compulsory provisions of the Silver Coinage act, four favor it, and twelve express no opinion. Several are in favor of the unlimited coinage of silver.

CHEAP NEWSPAPERS.

A Scheme to Circumvent the New York Newsdealers.

The New York Herald, in view of boycotting, prints the following advertisement:

"All men and women wanted to sell the Herald, and all other New York papers. No money needed; good references sufficient, preference given to widows with children to support, middle aged women in straightened circumstances, orphan boys and girls, and men who are crippled, unable to do manual labor. Apply between the hours of 10 A. M. and 3 P. M. The Herald says: For the organization and carrying out of this movement George A. Williams has been selected to arrange the necessary details. He will at once proceed to select deserving men, women and children to act as his agents. He will purchase for cash a large stock of the Herald and all other journals, and establish stands at all convenient places throughout the city, where will be sold the Times, Sun, Tribune, Evening Star, Journal, Truth, and the German newspapers. These papers may be purchased at the prices printed on each paper. He will build these stands with money placed in his hands, and start them with a suitable supply of New York daily journals and will give his dealers the entire profits of the papers they sell. He will give preference to widows who have children to support, middle aged women who happen to be in straightened circumstances, orphans, boys and girls, or men who have been crippled by accident or in the service of their country and are unable to procure steady employment. Depots will be established in various parts of the city, where large quantities of newspapers will be gathered from various offices and carried thither in wagons. No distinction will be made, but all papers will be created alike, according to the demand of the paper-reading public. Williams will organize a sufficient number of delivery routes. Every paper ordered through him will be delivered at the residence of the subscribers at the same price it is sold at the stands, namely, that fixed by the publishers of newspapers. The extortionate demands of the dealers rendered this step necessary. The fact is absurd that they should be permitted to deprive newspaper readers of the benefits of the reductions made by the publishers.

Senator Jones in Bonanza.

S. F. Exchange: We learn that Senator John P. Jones is one of the lucky owners in the Hamilton mine in Amador County. In this mine, if our readers are aware, an enormous pocket of gold, containing \$100,000, was uncovered last week, and the lead is being followed up with good results. We trust the Senator's luck is again on the upward path, and that he is now on the high road to prosperity. A million in Jones' hands is not a dead, inert mass of bullion, but a living factor of usefulness and enterprise.

The Western Union Wins Again.

The New York Court of Appeals has decided the Hatch-Williams case in favor of the Western Union Telegraph Company. The decision of the general term is reversed and judgment of the special term affirmed. This establishes legally \$15,000,000 worth of stock and removes all obstacle in the way of payment of dividends.

PRESIDENTIAL CHAT.

Blaine's Political Future—Arthur's Chances for Nomination.

A Chicago Times correspondent telegraphs from Waterloo, Iowa: Senator Hale of Maine was a passenger on the Illinois Central train the other day, on his way to fill one of his appointments, and was interviewed concerning Blaine's political future. To the remark that there was considerable speculation in regard to his position, and that it was said by some that he would be a candidate for President next year again, the Senator replied very emphatically that he would not.

"In certain quarters it is said Mr. Blaine will oppose Mr. Arthur's re-nomination?"

"Oh, shaw!" replied the Senator. "there is altogether too much suspicion in the minds of the people in regard to public men. The people think that no public man can do that which is simple and natural, but look all the time for them to do something startling and sensational. Mr. Blaine will do what would be perfectly natural for him to do. His time is taken up with his historical work, and he is out of politics for the present. But if he can do anything in the way of making speeches next Fall for the success of the ticket, he will do it. He has been twice a candidate for the Presidency, and was supported by the most brilliant portion of the party, and no one has a greater following among this class than he. There are the same animosities now, as when he was a candidate for the Presidency, and should he get the nomination there are certain men who would not allow him to be elected."

"Arthur's administration has given satisfaction, has it not?"

"Yes, sir; he is a level headed man, and a man of good purposes."

"Don't it look as though he would get the Republican nomination, unless there was a pretty strong combination against him?"

"Well, President Arthur knows that the only kind of nomination which would be of any benefit to him would be one that is spontaneous. If he should put office holders to work and thereby gain the nomination, it would not be of any good to him; and he is level headed enough to know it."

The Senator then changed the subject of conversation and remarked that this was his first visit to Iowa, and he was greatly pleased with the State.

Fabulously Rich.

The Amador Dispatch says:

One of the richest strikes known to the mining history of California was made at the Nevada, or Mammoth mine, about three miles south of here, last Saturday. A pocket of quartz of almost unparalleled richness was found less than 100 feet from the surface, in which was contained from \$75,000 to \$100,000, and being about two tons in quantity. Much of this might be justly termed huge chunks of gold instead of gold-bearing quartz. Some of these immense pieces of almost solid gold were about as heavy as a man could easily lift from the ground. The largest piece was of an oval shape 16x22 inches and 6 or 7 inches thick. The gold is almost black and of the same character as the former rich strikes found in the same mine, and which heretofore attracted the interest and attention of the mining men of all parts of the Union. We have no doubt but that this is the richest find of gold of this kind ever known in the United States at one single time, and will undoubtedly attract much attention from the mining men of the world.

A Wedding in Virginia.

A special from Richmond, Va., says: The most brilliant wedding that has occurred in Virginia for years took place at Belleville, Roanoke county. The contracting parties were Emily Thompson, the reigning belle in the county, and Napoleon B. Ainsworth, a full blooded Indian of the Choctaw tribe, who graduated at Roanoke College in 1881. The bride was dressed in India silk velvet, trimmed with point lace and diamonds. The groom holds the orator's medal and is a graduate of law from the State University. They left for the Indian Territory last night.

MISCELLANEOUS.

A HOME DRUGGIST

TESTIFIES.

Popularity at home is not always the best test of merit, but popularity to the fact that no other medicine has won for itself such universal approval in its own city, state, and country, and among all people, as

Ayer's Sarsaparilla.

The following letter from one of our best known Massachusetts Druggists should be of interest to every sufferer:—

"Eight years ago I had an attack of Rheumatism, no severe that I could not move from the bed, or dress, without help. I tried several remedies without much if any relief, until I took AYER'S SARSAPARILLA, by the use of two bottles of which I was completely cured. Have sold large quantities of your SARSAPARILLA, and it still retains its wonderful popularity. The many notable cures it has effected in this vicinity convince me that it is the best blood medicine ever offered to the public."

W. F. HARRIS.

River St., Buckland, Mass., May 13, 1882.

SALT RHEUM.

GEORGE ANNEXES, overseer in the Lowell Carpet Corporation was for over twenty years before his removal to Lowell afflicted with Salt Rheum in its worst form. His ulcerations actually covered more than half the surface of his body and limbs. He was entirely cured by AYER'S SARSAPARILLA. See certificate in Ayer's Almanac for 1883.

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists; \$1. six bottles for \$5.

Swindlers and Their Victims—

How Careless People Suffer In Health and Pocket.

Every streak of sunshine creates a shadow, and behind every truth crouches its corresponding lie. Whosoever has not been in some way fooled and robbed by swindlers and their works has had better luck in life than most mortals. In fact the best witnesses to the value of a given article are the counterfeits and imitations which seek to share its success without possessing a fraction of its merit.

Hence it goes without saying that BENSON'S CAPCINE PASTES are pursued by a host of miserable and worthless imitations, eager to appropriate what they can of the fruits of its victories. These leeches commonly take the form of a cheap plaster.

Now, these harmless and worthless plasters would be detected in a minute if people were careful in reading and remembering names. But most persons merely glance at them, understand partially and forget instantly. What result? This: Desiring to buy BENSON'S CAPCINE PASTER, their own carelessness enables some storekeeper or druggist, who cares more for five or ten cents additional profit than for the sweets of an approving conscience, to roll them up instead some cheap imitation with a similar name. The deceit often works, while the fraudulent plasters never do.

Don't permit yourself to be thus victimized for lack of a moment's care. BENSON'S CAPCINE PASTER have stood the test of science and experience and are the product of both. Examine the article, and satisfy yourself that the word CAPCINE is cut in it.

JOHN MACKAY.
The Bonanza King On His Native Heath-In Favor of Jones for Senator.
John Mackay arrived from the East yesterday morning, and departed for Virginia City in a carriage, the V. & T. train not having waited for the delayed train from the East. To Mr. Chamberlain and others, at the Depot Hotel, Mr. Mackay expressed himself freely on the Postal Telegraph Co. and other matters. The Senatorial question was broached and Mr. Mackay asked who were candidates. The reply was "It is supposed that Sharon, Mackay and Jones are." "Oh, pshaw," replied Mr. Mackay, "Sharon is not, and I am not fool enough to go into politics; Jones is the man for Nevada to return to the Senate; he can do us more good than anybody else; he suits me well enough."

Home Productions Favored.
The Eureka Leader says that flour manufactured in Humboldt county is as good, or even better, than the California flour and is cheaper. By using Nevada flour everybody is benefited, for it is not only patronizing a home industry but keeps the money in the country. What is true in this respect at Eureka, says the Reno JOURNAL, is equally true in the western part of the State. And the Carson Tribune adds that acting upon this theory Warden Bell of the State Prison has, during his administration, been using Nevada-made flour almost exclusively, and the Prison bakery turns out as fine bread as is to be found in the State. In all matters relating to supplies, Mr. Bell is ably seconded by the intelligent judgment of Charley Stoddard, the Commissary of that institution.

A Prosperous Farmer.
Dick Whittaker, with ten mule teams, loaded with Sierra Valley shingles, left yesterday for Surprise Valley. The shingles will be used to cover an immense barn which he now has in course of construction. Whittaker is building an old fashioned Pennsylvania barn, the biggest structure of the kind in the State.
Sold Out.
William Hedspeath, of Surprise Valley, has sold his Stein Mountain stock range and stock to Todhunter, the cattle king, for \$35,000. He still holds his Surprise Valley property. This sale gives Mr. Todhunter a valuable addition to his already enormous cattle range in the Stein Mountain country.

Off The Track.
By someone unknown the switch in the N. & O. yard at Reno was left open and allowed the little engine to run off on the ties on its return trip night before last. It took the engineer and a full force of men until 2 o'clock in the morning to get the engine back on the track. No serious damage was done.
The most healthy and popular drink of the season is the ice cold soda water sparkling with purest gas and flavored with true, delicious fruit syrups, to be had only at Queen's soda fountain.

IN AND OUT OF TOWN.
What is Being Said and Done in a Small Way.
M. E. Ward is a happy father.
Doc. J. M. Benton was in town yesterday.
Richardson is fitting up the Arcade in grand style.
W. H. Joy, Lieutenant at the State Prison, is in town.
E. B. Rail was a passenger for the Bay yesterday.
Admiral Dick Dey was on hand yesterday morning.
The White House has some magnificent Winter overcoats.
John Lanager has sold his interest in the Buffalo salt marsh for \$350.
The Grangers of Sierra Valley are holding a two days Fair at Beckwith.
Rev. Mr. Pratt and family, arrived in town yesterday from Sierra Valley.
Judge Webster went to Truckee yesterday to conduct an important law suit.
W. D. Tobey, of Yerington, Bliss & Co., returned to Carson yesterday morning.
The JOURNAL job office is crowded with work. But there is always room for one more.
It is a noticeable fact that all the Reno markets are supplied with an excellent quality of beef.
Putting up stoves for Fall and Winter use is now a popular and active movement.
Dr. Bishop was around yesterday paying off bills against the Asylum for the month of September.
Read the quarterly reports of the Auditor and Treasurer and keep informed upon county finances.
Dr. R. B. Learn, an itinerant dentist, of Oakland, arrived in Reno yesterday from a trip through the northern country.
R. B. Mitchell, of Virginia, was a passenger for San Francisco yesterday morning, in which city he will hereafter practice his profession.
S. Sanderson, of Susanville, took the East bound express train for Dubuque, Iowa, yesterday morning. He expects to be gone all Winter.
Mrs. A. G. Hunter, who has been in poor health for a long time, started for Denver yesterday morning, hoping the change will benefit her.
Both the Reno papers have entered on new volumes. Excellent papers; constantly on guard where Washoe's interests are at stake.—Carson Tribune.
Capt. G. R. Woods, of the Singer Machine Co., who has spent a year or more in Idaho, arrived in town yesterday, and will leave this morning for San Francisco.
Yesterday Mrs. Shumway, of Horse Lake, Lassen county, Cal., arrived in Reno with her daughter, Miss Susie, who she will place in one of Reno's excellent schools.
H. H. Daiken, of the Janesville flouring mills, with his wife, arrived in Reno yesterday. Mr. Daiken goes to Virginia City on business and his wife remains here visiting her sister, Mrs. Sheldon.
Mrs. Frank David, of Susanville, who several months ago went to tide water for her health, returned yesterday morning with her health much improved. Her husband met her at the depot.
G. F. M. Comstock, of Hawthorne, came up from the Bay yesterday morning. Mr. Comstock has leased the Tallac House, at Lake Tahoe, from Lucky Baldwin, and will manage it for the next three years.
Ziegler's meat market is constantly provided with the freshest of beef, mutton, pork, lamb, and veal, as well as hams, bacon, lard, salted pork, etc. For meats of all kinds, give Ziegler a call, and you will go away satisfied.
The weather for the past few days has made everybody hustle around for Winter clothing and the Renoites are fortunate enough to have a place to get supplied with everything in the line of overcoats, thick underwear, etc., at prices to suit themselves. The place is Abraham Brothers.
Prof. Foster will deliver a lecture this evening (Friday) in the Methodist Church at 7:30 o'clock, the proceeds of which will be given to the Woman's Christian Temperance Union. His subject is an interesting one; namely: "Antioch and the Mountains of Lebanon, with a description of the customs and manners of the strange people inhabiting the slopes of these Mountains." Without doubt those who attend will be well repaid, besides helping a worthy cause.
